

JINDVIR SINGH

SOFTWARE ENGINEER | MOBILE APPLICATIONS | NODE.JS | API INTEGRATION

jindvir.singh@outlook.com | [linkedin.com/in/jindvirsingh](https://www.linkedin.com/in/jindvirsingh)

PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience developing and supporting enterprise software across mobile applications, backend services and system integrations. Full stack experience combines Android development with Java and Kotlin, iOS development with Swift, and Node.js backend development. Connects mobile applications to backend APIs, authentication and session workflows. Experience includes reusable workflow engines, real-time web features and centralised application monitoring across three enterprise deployment environments. Contributes from requirements and implementation through testing, deployment and production troubleshooting.

TECHNICAL SKILLS

Backend development: JavaScript, Node.js, application services, configurable workflow engines

APIs and integration: REST APIs, mobile-to-backend integration, authentication, session management

Mobile development: Android, Java, Kotlin, iOS, Swift

Data and real-time applications: MongoDB, Socket.IO, WebRTC, mediasoup

Engineering and delivery: Git, Linux, Splunk, debugging, deployment support, incident diagnosis, technical documentation

PROFESSIONAL EXPERIENCE

Consilium Software Private Ltd. | New Delhi, India

Software Engineer | June 2026 – September 2026

- Developed and maintained enterprise backend services supporting application workflows, with responsibilities spanning implementation, deployment support and production troubleshooting.
- Developed a configurable workflow engine for outbound operations, replacing repeated per-campaign setup with reusable configurations and reducing manual setup effort.
- Implemented core services for a real-time application, supporting multi-user sessions, application state and low-latency data exchange.
- Worked with engineering, QA and customer-facing teams to translate requirements into application changes, test functionality, support deployments and resolve production issues.

Consilium Software Private Ltd. | New Delhi, India

Junior Software Engineer | May 2024 - May 2026

- Developed Node.js services for authentication and session lifecycle management, integrating backend functionality with other application components.
- Built a real-time web co-browsing feature that enabled shared browser interactions for remote assistance and customer-support workflows.
- Implemented access-controlled session monitoring, allowing authorised users to observe active sessions within an enterprise application.

- Integrated application telemetry with Splunk across three enterprise deployment environments, centralising logs to support incident investigation and production troubleshooting.
- Investigated and resolved issues across backend services, application sessions, infrastructure integrations and deployment configuration.

APPLICATION DEVELOPMENT HIGHLIGHTS

Full stack mobile and backend development

Technologies: Java, Kotlin, Android, Swift, iOS, Node.js, REST APIs

- Developed Android applications using Java and Kotlin and contributed to iOS application development using Swift.
- Worked across mobile client functionality and Node.js backend services, connecting application features with APIs, authentication and session workflows.

MeetNow | Android and iOS application development

- Contributed to native mobile applications with user authentication, backend integration and session management, alongside screen sharing and real-time voice and video functionality.

GlobeMeet | Node.js backend development

Technologies: Node.js, Socket.IO

- Contributed to enterprise backend services supporting session workflows, monitoring, recording and quality management within a real-time application.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering, Computer Science Engineering | 2020 - 2024

Chandigarh University, Punjab, India

Google UX Design Professional Certificate

Cisco: Cisco Unified Communications Manager

Languages: English, Hindi, Punjabi
